

Pixellon.in

Logo shades, favicon set, text styles and the motion lockup
for the AI & ML project hub.

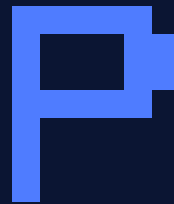

01 Logo shades

Six approved treatments. The mark is solid at every size — no gradients, glows
or outlines, and never rotated.

PRIMARY

#1D4ED8

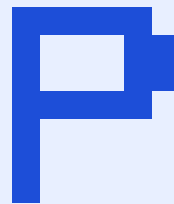

ON DARK

#4F70FF

MONO INK

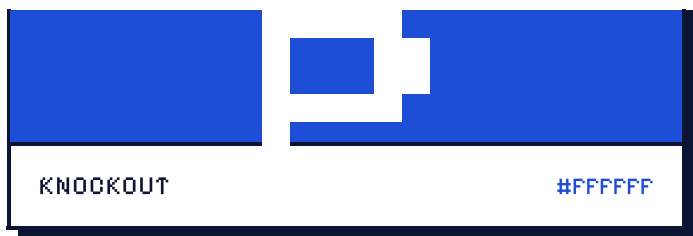

#001933

TINTED FILL

#E8CFFF

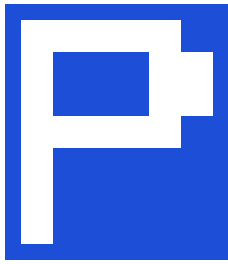

02 Motion logo

Cells snap on row by row — steps, never eases into blur — then the wordmark settles. Full cycle 3.2s, safe to loop or to freeze on the last frame.

03 Favicon & app icon

The icon is the mark alone, one cell of padding, on Pixel Blue. Export at exact multiples so cells stay square: 16, 32, 64, 180, 512.

04 Text styles

Pixelify Sans carries display, labels and UI chrome. Nunito Sans carries everything you actually read.

PIXELIFY SANS

Pixellon.in

ABCDEFGH abcdEfgh 0123

Display 34 / 600

Hero + section headers. Mixed case, always.

LABEL 14 / 0.10EM / UPPERCASE

Buttons, tags, terminal headings.

MICRO 11 - THE FLOOR

Never smaller, never in paragraphs.

NUNITO SANS

We help you build

ABCDEFGH abcdefgh 0123

Headline 30 / 700

Page and card titles, line-height 1.2.

Subhead 20 / 600

Intros and lead-ins.

Body 16 / 400 / 1.6 — mini and main projects, synopsis to viva, with a mentor answering inside 24 hours.

Caption 13 / 600 / 70%

08 Colour

White carries the page; blue carries meaning. Never fill more than a quarter of a screen with Pixel Blue.

Pixel Blue #1D4ED8 · primary, links, the .in	Signal Blue #4F7CFF · on dark, hover	Deep Ink #0B1533 · text, borders
Grid Tint #E8FFFF · fills, grid lines	Paper #FFFFFF · default background
